

How to Draw a Cat

by Ann Shen
@anndanger

STEP 1: Draw a loose circle for the head, an upside-down egg shape for the body, and two ovals tilting in for the legs.

STEP 2: Add two triangles on top of the circle for ears, and then two points on the outside of the circle for the cheeks. Add four half-circles on the bottom for the foot paws, and an S-shaped outline for the tail.

STEP 3: Draw three lines on the ears to indicate the ear folds and fur, and a curl on the top of the head. For the face: draw two dot eyes, an upside-down triangle for a nose, and two curves for the mouth. Add dots on the cheeks and three whisker lines.

STEP 4: Darken the outside lines as indicated to finish off your cat! Feel free to add accessories and other details to infuse your cat with your own style.

Please use the back side of this sheet for drawing or one of the blank sheets provided.
